

SUCCESS STORY

**Harvey and Rebecca thought,
“we are too far gone”**

What did that mean?

- Their home had been foreclosed,
- They were drowning in debt
- They were living with a family member
- They were working multiple jobs but under-employed.

What started their road to success? One day they met a compassionate mentor from The Salvation Army who guided, encouraged, and linked them to services. This, paired with hard work, determination, and resilience they were able, within 2 years to: develop a working budget, earn a grant for a down payment on a home after savings \$1000, purchase a reliable used car, and maintain gainful, satisfying employment and have more time for family.

SUPPORT SERVICES AVAILABLE

- Personal Mentoring
- Identificaiton of Roadblocks
