Dear Roller Families:

As you may be aware, the 3rd marking period ends on March 26, 2020. As a district, we have decided to adhere to the scheduled marking period timeline. Prior to moving forward with the 4th marking period, we would like to bring a fair and reasonable ending to the 3rd marking period. After careful consideration, we will be implementing the following grading procedures for determining final 3rd marking period grades:

- Teachers will submit grades by April 1, 2020, and MP3 report cards will be distributed to students upon return to school. Should the date for return be extended again, report cards will be mailed home.
- If necessary, teachers will adjust final grades so that no student scores below a 50% for MP3.

We appreciate your patience and understanding as we navigate this challenging time. We look forward to engaging students in learning during the fourth marking period.

If you have any questions or concerns, please contact your child’s teacher or me via email.
